## JURY WAS SELECTED.

Trial of Tillman Expected to Con-  
sume Some Time.

## OBJECTED TO PANEL.

Officer Boland of the Columbia Po-  
lice Force, Who Arrested De-  
fendant, the First Wit-  
ness on Stand.

Lexington, S. C., Sept. 29.—In the  
case of J. H. Tillman, charged with  
killing N. G. Gonzales, it was 11 o'clock  
when the prosecutor for this circuit,  
J. M. Thurmond, announced that the  
state was ready to proceed with the  
trial of the case.

Mrs. J. H. Tillman and the mother of  
the defendant were present at the open-  
ing of court and remained throughout  
the day's session, occupying seats with-  
in the railing. The jury completed, the  
state objected to five of the panel and  
the defense to ten.

G. F. Boland, a member of the Co-  
lumbia police force, was the first wit-  
ness. He said he took Tillman to the  
police station in Columbia from the  
scene of the shooting on Jan. 15, de-  
scribing where Tillman was standing  
in the street with reference to Gon-  
zales. He testified that Tillman said to  
him: "I received Gonzales' message."

The witness said he said to Tillman,  
"Did you shoot Gonzales?" He said  
Tillman replied that he did.

He said the defendant carried a pistol  
in his hand and another was found in  
his pocket when the station was reach-

ed. Tillman, he said, wanted to keep the  
pistol until the station was reached for  
his protection, but the witness insisted  
on taking it. He said Tillman was  
walking diagonally across the street  
when he first saw him and was looking  
toward Gonzales. The two pistols were  
exhibited to the witness for the purpose  
of identification. One was an automatic  
pistol and it was this one the witness  
said Tillman held in his hand.

On cross examination he said Tillman  
submitted quietly to accompanying him  
to the station.

W. H. Coleman, sheriff of Richland  
county, identified the pistols as those  
turned over to him.

J. F. Walker, clerk of Richland coun-  
ty, was asked to demonstrate to the  
jury the working of the automatic pis-  
tol. An overcoat and suit of clothes  
were exhibited and were identified by  
J. A. Hoyt, Jr., and T. G. Wood, Jr.,  
members of the editorial staff of the  
State as garments worn by Mr. Gon-  
zales. The attention of the jury was  
drawn to the bullet holes in the coat  
and overcoat. The cross-examination  
of witnesses by the defense was brief.

It is estimated that there are about  
200 witnesses to be heard.

## AMOUNT OF BUSINESS.

What the Southern District Court For  
Indian Territory Did.

Ardmore, I. T., Sept. 29.—The report  
of United States District Attorney  
Johnson shows the amount of business  
transacted in the Southern district as  
follows:

Total number of criminal cases dur-  
ing year, 805; number of convictions,  
335; number of acquittals, 34; num-  
ber of discontinued and nolleed, 433;  
number of cases pending July 1, 1903,  
945; amount of fines and forfeitures,  
\$3550. Of the number marked dis-  
continued and nolleed at least 200 were  
cases transferred to the new courts es-  
tablished since July, 1902, which were  
taken off the old docket and given a  
new number.

## SERIOUS CONFLICT.

One Patrolman Badly Injured and An-  
other Also Hurt.

Sault Ste. Marie, Mich., Sept. 29.—In  
a conflict between the mob and the  
police at the Lake Superior works Pa-  
trolman Littlewood was seriously in-  
jured and Patrolman Stinson was also  
badly hurt. Two other policemen were  
injured. The firemen have also come  
under the ban of the mob, who threat-  
ened all kinds of things to the depart-  
ment because of their action Monday.  
The fire hall is closed and locked and  
guarded from within by armed men.  
The ferry boat is not allowed to land  
on the Canadian side as the rioters are  
at the ferry dock in force, and threat-  
en to take every employee off the boat  
as soon as it ties up.

## Husband Drew First Claim.

Lawton, Okla., Sept. 29.—Mrs. Alta  
M. Powers, formerly Mrs. Woods, died  
at Oakland Cal., while undergoing a  
surgical operation. Mrs. Woods was  
wife of James Woods, who drew claim  
No. 1 in the great land drawing in the  
Lawton land district, and which claim  
is now part of the city of Lawton.  
Her remains have been shipped to  
Norton, Kan., for burial.

## Ends His Existence.

Ardmore, I. T., Sept. 29.—Jack Hoff-  
man, residing near Ardmore, while re-  
turning from a hunt, and in the pres-  
ence of his nephew, turned both bar-  
rels of a shotgun against his right  
temple and pulled the triggers. The  
result will prove fatal.

## Filings So Far Made.

Vinita, I. T., Sept. 29.—The commis-  
sion to the Five Civilized tribes at the  
Cherokee land office has made 13,931  
filings on Cherokee allotments since  
the office opened on the first day of  
last January.

## KING OF YAP'S WILL.

An Attorney Discovered One Was  
Made at Hongkong.

## BECAME A MONARCH.

David D. O'Keefe, an American, Was  
Shipwrecked on an Island and  
the Natives Chose Him  
as Their Ruler.

San Francisco, Sept. 29.—William C.  
Hartridge, who went to the Caroline  
Islands last May in the interest of Mrs.  
Catherine O'Keefe, widow of David D.  
O'Keefe, has arrived on the steamer  
Doric. O'Keefe was known as the  
king of Yap. He left his wife and  
daughter at Savannah, Ga., in the  
early seventies and was wrecked on  
this island. Being the first white man  
the natives had ever seen, they treated  
him with reverence and finally made  
him king. Over a year ago, after visit-  
ing Hongkong on business, he start-  
ed to return on one of his vessels, and  
that was the last ever heard of him.  
Upon hearing of his death Lawyer  
Hartridge was sent out to see how  
matters stood. He found a will at  
Hongkong distributing an estate val-  
ued at \$1,500,000 in property, all of  
which is productive. He had left a  
large amount to his daughter, Mrs. J.  
F. Butler, of Savannah, and it is ex-  
pected his widow will claim about 50  
per cent of his estate.

## REFUSES TO HAUL.

Railroad Company Will Not Transport  
Men to Canadian Soo.

Sault Ste. Marie, Mich., Sept. 29.—  
There was no further disturbance late  
Monday night or early Tuesday in the  
Canadian Soo, but the situation has  
some elements which do not promise a  
long continuance of the present peace-  
ful conditions. In the first place, every  
saloon in town is wide open, and most  
of them, especially in the laboring  
men's districts, are being patronized  
heavily by a horde of idle men who  
composed Monday's mobs. In the sec-  
ond place, 1500 instead of 400 men, as  
reported Monday night, are at Wier's  
lumbering camp. It is twelve miles  
up the Algoma Central railroad and  
this body of men the railroad has re-  
fused to transport to Canadian Soo un-  
der present troubled conditions.

## Left For Scene of Trouble.

Toronto, Ont., Sept. 29.—Twenty men  
of the Royal Canadian Dragoons, with  
sixteen horses and forty infantrymen,  
under command of Colonel Buchanan,  
left for Soo. They were followed later  
by seventy men and three officers from  
the three city regiments. They left in  
response to an urgent appeal from Col-  
onel Elliott of the Ninety-seventh re-  
giment at Soo, who stated the compa-  
nies now there were utterly unable to  
cope with the situation.

## SACK SYSTEM.

It is a Branch of Field Work Lately  
Adopted by the Army.

Camp Young, West Point, Ky., Sept.  
29.—After Monday's all day advance  
and rear guard maneuver, the light  
task assigned the regular army men  
Tuesday was welcomed. This work  
involved drilling of outposts, and it  
is thought that the sack system of this  
branch of field work, recently adopted  
by the army, will be given its first  
trial. The principle of action is that  
a small body of men does duty at out-  
posts instead of having relief patrols.  
In this manner pickets cover territory  
in fan shape instead of advancing in  
a straight line.

## NINETEEN EXPLOSIONS.

Chicago Varnish Works Burn and  
Firemen Have Close Calls.

Chicago, Sept. 29.—Terrific explosions  
shattered the Varnish works, 2620-2628  
Armour avenue, made it a prey to the  
flames and entailed a loss of  
\$350,000. There were nineteen explo-  
sions. A number of firemen sustained  
injuries and several persons had nar-  
row escapes. The streets adjacent  
were impassable owing to the oil that  
poured from the factory.

Five firemen were on the roof when  
the first floor fell in. The flames shot  
up past them on every side and the  
spectators momentarily expected to see  
them dashed into the flames below. The  
roof tottered and swayed, but the five  
men ran to the nearest corner. A  
short ladder reached to within five feet  
of the roof. They leaped and all but  
one escaped safely. This one fell twelve  
feet. He was unconscious, but revived.

## Chased Him Three Blocks.

Chicago, Sept. 29.—Detectives ended  
a chase of three blocks by arresting  
Walter Stoddard Chatfield, said to be  
wanted at Far Rockaway, L. I., for  
embezzling \$6000 from the American  
Express company. Chatfield is alleged  
to have taken the money Sept. 6. He  
had \$375 when arrested after leaving  
his room. Detectives in the large cit-  
ies in the country and abroad were  
notified recently to watch for Chatfield.

## Literally Blown to Atoms.

Wallace, Ida., Sept. 29.—Two miners  
have been instantly killed and two others  
injured by the accidental explosion  
of a powder magazine at Mammoth  
mines, a short distance from the min-  
ing camp of the Black Bear. The dead  
men were literally blown to atoms.

One Doctor Claims They Are Cause  
of Yellow Fever.

### CAMP OF DETENTION.

One Is to Be Established Near Laredo and All but Through Passengers Are to Be Held For Ten Days.

Laredo, Tex., Sept. 29.—There have been no deaths from yellow fever in this city, but five new cases have been pronounced by the experts who are in charge of the situation.

A light rain fell about three hours early Monday morning, increasing the unfavorableness of the situation.

Orders have been issued to the railroad company prohibiting the sale of tickets to any point north. This step was taken because the authorities intend to establish a detention camp at Sanchez station, five miles from here, where all passengers who wish to depart for points in the north will be compelled to spend ten days under surveillance. The detention, however, does not apply to through passengers from points beyond the yellow fever district, the only thing exacted from such passengers being a certificate from a United States consul in Mexico showing they have not been in an infected region within ten days.

Drs. Guiteras and Tabor have perfected the organization of their forces to carry on the work of placing the city in a sanitary condition by sending out four gangs in charge of competent physicians whose duty it is to supervise the disinfection of all houses within the neighborhood where yellow fever patients have died and where cases now exist. Federal and state officers are working in harmony, but there is a difference of opinion as to whether or not the disease is contagious. Dr. Guiteras, in an interview, urged the necessity of fighting the mosquito as the only means of stamping out the disease. He said this theory of stamping out the disease was accepted by the International Medical congress held in Havana in 1901, and although there are many learned men who do not accept this theory, he is thoroughly convinced of its correctness. He said if the city had been thoroughly drained before the advance of yellow fever from Mexico there would have been no spread of the disease here.

Dr. Tabor said that he believed the disease could be transmitted by infection, and that while the mosquito undoubtedly communicated the disease, he thought it could be acquired by infection as well. As there are many things not absolutely settled to the minds of all men of science, he said it would be well for the inhabitants of the city to take every precaution both against infection from contact with the disease and by being bitten by the yellow fever mosquito. Every case of fever has been isolated and the doors and windows of the houses covered with mosquito netting to prevent a further spread of the disease from the patients under treatment.

Little information of a reliable nature can be learned from Nuevo Laredo, but it is reported that several cases developed here Monday. It is also reported that several of the patients are not protected from the mosquitoes, some of the medical gentlemen there not believing in the transmission of the disease by this means.

### AT LINARES.

The Situation There Is Said to Be Very Little Improved.

Laredo, Tex., Sept. 29.—Reports from Linares say the yellow fever situation is little improved. Twenty-two deaths have occurred during the past three days. The agents of the Superior board of health are doing all they can to control the disease. Patients are isolated as much as possible as soon as they are found, and a large force of men is being kept busy working to improve the sanitary condition of the city.

In the towns north of Linares the disease has not appeared. The Monterey authorities claim the city is free of fever. They say the only case which has appeared was that of Dr. Alderman, who died Sunday. They say if the fever should make its appearance they are prepared to speedily stamp it out.

### FOURTH PERIOD.

Thirteen Confirmed Cases and Four Suspicious Ones.

Victoria, Mex., Sept. 29.—The yellow fever has now entered upon its fourth period. The bulletin board gave out Monday morning thirteen confirmed cases and four suspicious cases. Since the breaking out of this epidemic it has moved in period more or less regular. It occupies more or less seven days to gain the maximum.

### BEING ADJUSTED.

Thought Cotton Concentrating Case Will Soon Be Settled.

Shreveport, La., Sept. 29.—The Shreveport cotton concentrating case, which has been pending before the Louisiana railroad commission now for more than a month, is in a fair way of finally being adjusted to the satisfaction of all the interests involved. The hearing has been closed, and the case is now under consideration by the commission for a decision, which is expected within the next few days.

### Commander Dead.

Washington, Sept. 29.—Rear Admiral P. H. Cooper, commanding the northern squadron of the Asiatic fleet, has advised the navy department by cable of the death at the Yokohama hospital of Commander E. H. Hughes. He entered the service in 1866.

## THE DAILY EAGLE.

Entered at the postoffice as second class mail matter.

BY CONNELLY & CARNES.

Per Week, 15c. - - Per Month, 40c.

BRYAN, TEXAS, SEP. 30, 1903

Have a chew of Brazos county tobacco, Mr. Shelfer.

Brown is again bulling the cotton market. Luck to him.

The district court couldn't get by without a harrowing tragedy.

Get in touch with the business league and you will be surprised by its salutary influence.

If you have tobacco lands, prepare to show them now. Expert Shelfer is expected today.

Bryan still maintains her "strategic position" commercially, and the cotton continues to roll in.

Brazos county people may never wear queues and eat with chop sticks, but you needn't be surprised to see them growing rice for profit.

Dr. Tabor for the State and Dr. Guiteras for the federal government, are at Laredo working in harmony, and appear to have the yellow fever situation well in hand. The two differ somewhat in their views regarding the disease. Dr. Guiteras says it is not contagious except by mosquitoes, while Dr. Tabor believes it is infectious also. Dr. Tabor will remain there until the city is clear of the disease.

### Not to Be Considered.

Austin, Sept. 29.—The information which the Texas railroad commission received several days ago from east Texas cotton men and from railroad traffic men of Houston to the effect that the Louisiana railroad commission was to consider the proposition to reduce the rate on cotton from Logansport to Shreveport to 13 cents per 100 pounds was erroneous.

### Remains at Laredo.

Austin, Sept. 29.—Dr. Tabor expects to remain at Laredo until there is a decided change for the better in the yellow fever situation. Dr. Tabor has equipped his office with a long distance telephone and keeps in touch with his Austin office so as to be advised of conditions at other places along the border and in Mexico, and give instructions based on his advice.

### Choked With Dirt.

Hillsboro, Tex., Sept. 29.—Near Itasca a negro baby, Ivey Omderson, was left in charge of a negro girl, Warren, two years old, while its parents were picking cotton. It got to crying and she stuffed dirt in its mouth to make it hush and it strangled to death. The remains were inquested by Esquire Stanley and the verdict was in accordance with the above.

### Wool Rolling In.

San Angelo, Tex., Sept. 29.—W. A. Coffey Coleman brought in 1500 pounds of fall wool. Forty-five sacks of fall wool from beyond the Pecos belonging to McKenzle & Ferguson were brought in by J. R. Taylor of Sheffield. The fall wool clip is rolling in daily in quantity.

### Due to Ill Health.

San Antonio, Sept. 29.—Asa Baynton of Haverhill, O., committed suicide here by shooting. Ill health is assigned as the cause.

### Strike Still On.

Waco, Sept. 29.—The street car strike is still on.

### Situation Same.

Washington, Sept. 29.—The following bulletin was posted at the state department: The department of state received a cable message from Minister Beaupre, dated Sept. 27, 8 p. m. He reports that there has been no change in the situation in respect to the canal matter. A second debate on the bill is expected within a few days and it is thought it may be defeated. The present outlook is for some amendment of the reported bill.

### At Washington.

Washington, Sept. 29.—President Roosevelt and party arrived here from Oyster Bay at 4:05 Monday afternoon.

### RIOTOUS SCENES.

Woodruff's Slate Was Smashed and He Was Roughly Handled.

New York, Sept. 29.—After one of the most riotous scenes ever enacted in a political meeting in Brooklyn, the Republican county slate made by former Lieutenant Governor Timothy L. Woodruff was smashed and Henry Bel-dum Ketchum was nominated for district attorney of Kings in place of Geo. F. Elliott, who was Mr. Woodruff's opponent.

While the convention was in an uproar and fighting had begun in the hall Mr. Ketchum attempted to withdraw his name and his clothing was torn from his body by his partisans, who attempted to drag him from the room to prevent his withdrawal. In the street Mr. Ketchum fainted.

The noise of the riot drew the police to the hall and they charged down the center aisles, clubbing right and left, forcing the delegates into their seats and separating those who were fighting.

Mr. Woodruff was drawn into the personal encounters and was roughly handled. Several men were badly bruised.

At a conference earlier in the evening Mr. Elliott had been agreed upon for district attorney. This conference was between the Republicans and the fusionists. The row started soon after the convention assembled.

It was early Tuesday before the turmoil of the Kings County Republican convention ceased and the work of naming a ticket was concluded. The ticket as it now stands is as follows: For borough president, J. Edward Swanstrom; Citizens' Union; for sheriff, John K. Neal, Republican; for registrar, Dr. W. John Schlde of German-American Municipal League.

### A GREATER BRYAN.

Bryan has the largest stocks of merchandise carried by any town between Houston and Corsicana. There are many hamlets and villages in this part of the state some of whose citizens buy goods away from home. Why not advertise extensively, like Houston merchants do, and get a great many orders from surrounding towns that now go to Houston?

If the Sunday Morning Eagle had several good page ads, we could afford to add several more pages of good reading and news, and circulate the paper (Sunday's edition), in several towns in this part of the state. The result would be easy to calculate. Trade in large volume would follow as surely as day follows night. Excursions on our railways, properly arranged and timely, is another means of producing good results.

Bryan holds a peculiar "strategic position," which offers the opportunity, if taken advantage of, to build up a city. Pluck and enterprise, and reaching out for business, with ever increasing stocks of goods will do the trick. Grumbling and fear, and narrowing down our policy and allowing opportunities to pass unheeded, will just as surely produce the opposite effect of drying us up and shrinking our volume of trade, allowing the big towns to get it, while we dwindle away. Oh, for a leader of Napoleonic genius, who could realize our opportunities, and lead us on to a glorious future!

If the merchants of Bryan will co-operate, The Eagle will get out a big paper Sunday morning—say about 16 pages, filled with good reading and advertisements, and distribute them in every town on our railroads in all directions for fifty miles each way. We believe it would be a trade winner.

The attorneys in the Montgomery case will make a motion for a new hearing today.

The opening attraction at the opera house and the only attraction booked for October is "Looking for a Wife," which will be seen here Tuesday night, Oct. 6. The management promises a rattling good show with twenty-five people, mostly girls, in the cast, and the piece has excellent press notices.

The charred remains of the negro burned in the cabin west of Bryan Monday morning, were brought to town yesterday morning by order of the authorities. In the office of the jail the body was examined by physicians, who pronounced it that of a man. The arms were burned off, the legs partly so, and the head and trunk was an unrecognizable mass. The identity of the victim has not been determined, but it is believed that his name was Sam McMillan. After the examination the body was taken to the country again, and buried at Pleasant Hill graveyard, on Still Creek. The grand jury will re-convene next Monday, Oct. 5, at which time the case will doubtless be thoroughly investigated.

Bryan will get the trade from all the little towns around this part of the state by and by, if she will work for it.

The second shipment of Bunker Hill school shoes has just been received at Norwood's. 256

Master John, the 8-year-old son of Mr. and Mrs. John T. Hanway, was bitten through one wrist and the other hand and had his arm lacerated by a cat, at his home yesterday. Accustomed to play with the cat, he seized it and it attacked viciously, and had to be beaten off by a negro at work on the place. The cat is pronounced mad by the attending physician, and has been put in a box to further determine the matter. The wounds were promptly burned, and every precaution taken. Mr. Hanway expects to leave with the boy today or tonight for St. Louis for the Pasteur treatment.

Another shipment of the American Girl and Mary Stuart shoes received at Norwood's. 256

An excursion from Madisonville to Bryan on the I. & G. N., with a cheap rate and two days to remain in Bryan, the 16th and 17th of October, has been suggested as a good trade proposition. The big show will be here on the 17th. Let the excursion be timed to reach here the night of the 15th or early morning of the 16th, to leave on the night of the 17th. This would give our Madison county neighbors a chance to come over and trade, see the show, and get a ride over their new road besides. It's a good suggestion. Marlin is having railway excursions regularly now, and why might not a few such pay the people of Bryan?

Marcella, \$2.00; Corinne, \$2.50; Zerita, \$3.00; Empress, \$3.50. They are beauties, ask Webb Bros. about them. 254-256

**AGAINST HITCHCOCK.**  
The Temporary Injunction Heretofore Granted, Is Dissolved.  
Washington, Sept. 29.—Justice Anderson of the supreme court of the District of Columbia rendered an opinion in the injunction proceedings of the Delaware Indians against Secretary Hitchcock and the Dawes Indian commission, dissolving the temporary injunction heretofore granted. The case involves the right of the secretary to pass on the 157,000 acres of land in the Cherokee nation, segregated for the use of the Indians. The Indians claimed that the secretary is without authority to approve or disapprove of the segregation, as it had been improved by the Indians interested, and asked that he be enjoined against taking such action pending the adjudication of the same question by the court of claims. Soon after the case was filed the court granted a temporary injunction, but Judge Anderson dissolved it. Soon after the decision was rendered Attorney W. S. Logan filed a petition in the court of claims on behalf of the Delaware against the United States, asking that damages be awarded in the sum of \$1,000,000 because of the expenses to which the Indians have been subjected because of the necessity of defending the title in their lands. In this petition they make some sensational statements. One of these accusations is to the effect that members of the Dawes commission are interested in oil leases and companies holding leases on their lands by Cherokees claiming title.

The secretary of the interior is charged with unlawful acts to defraud the Indians, such as that of encouraging white men who have married squaws to make claims to Delaware lands.

**CABIN BURNS.**  
Negro Was Cremated in It, and an Arrest Has Been Made.  
Bryan, Tex., Sept. 29.—Seven miles west a cabin was burned and with it the body of a negro. Justice Mitchell held an inquest. He was of the opinion that the party was shot in the head and the house burned over the body afterward. Monday it was believed here that the remains were those of a negro named Fannie Taylor, who occupied the house. Later, however, the Taylor woman was discovered near town and brought in and placed in jail.

**First Rain of Season.**  
Los Angeles, Cal., Sept. 29.—The first rain of the season is falling. A storm at this time will result in serious damage to the bean crop. It is estimated that more than 100,000 sacks will be harvested in the Santa Monica district alone.

World T  
San Francisco, Sept. 29.—The Earl of Lonsdale arrived on the steamer Ventura on his way home after making a tour of the world. In regard to the scandal in the British war office he says it was precisely what he expected. He thinks the war office authorities are entitled to all the censure they received and does not believe Lord Kitchener is suited for the war office. His observations in the Orient led him to believe that Russia is playing an interesting game in the far east. She may withdraw a battalion of troops, but as she does so she sends in railroad battalions to take its place, and these battalions, therefore, work more serious harm than take care of railroads. Russia is prepared to take all the trade now enjoyed by America. She ousts all Americans from the Yalu river, cutting into the lumber trade, now being shipped from this coast, by opening up a rich timber belt owned by Russian firms in the Yalu district.

**SAT DOWN.**  
Attorney Robinson Remained Seated at Suggestion of Chief Justice.  
London, Sept. 29.—When the Alaskan boundary commission resumed its sessions Tuesday morning, Christopher Robinson, K. C., who suffered from a severe indisposition Monday, resumed his speech in behalf of Canadian claims, though at the suggestion of Chief Justice Alverston counsel remained seated. Mr. Robinson dealt vigorously with the availability of the maps of the district under contention, claiming American deductions therefrom were, therefore, weak. Mr. Robinson was ill Monday night.

**Physicians Testify.**  
Lexington, S. C., Sept. 29.—In the Tillman case the state introduced Dr. Guerry, who attended Mr. Gonzales and performed the autopsy. He described location and character of wound. During the examination of Dr. Hope the jury was sent out while counsel argued as to the admissibility of evidence sought to be introduced as to a statement made to him by Mr. Gonzales. Solicitor Thurmond said he was laying the foundation of the introduction of dying declaration.

**Said to Have Fled.**  
Berlin, Sept. 29.—The Frankfort Zeitung says Ephraim Kamer, head of the bank at Satalaus, Galicia, fled after embezzling \$12,500 which had been deposited in the bank. Kamer, who said he lost the money in bourse speculation and card playing, is reported to be on his way to America.

**New Lord Mayor.**  
London, Sept. 29.—At the meeting of aldermen in Guild hall Alderman Sir James Thomson Ritchie, brother of the late chancellor of the exchequer, was elected lord mayor of London for the ensuing year in succession to Sir Marcus Samuel.

**Newspaper Man Dies.**

**Type Founders Strike.**  
St. Louis, Sept. 29.—Members of the Type Founders' union, numbering seventy-five, went on strike here. The strike is said to be in accordance with a general order calling out every member of the Type Founders' union in the country. The Type Founders' union belongs to the International Typographical union.

**Steadily Improving.**  
Buffalo, N. Y., Sept. 29.—Mrs. Jefferson Davis is steadily improving.

**Cotton Pickers in Demand.**  
Austin, Sept. 29.—Travis county farmers cannot get enough cotton pickers. **Body Identified.**  
Birmingham, Ala., Sept. 29.—The body of the woman found in East lake has been identified as that of Ella Dodd, a well-known character. Charles Kelley, arrested on suspicion of having murdered her, is still being held for investigation.

**Lowest in Many Years.**  
London, Sept. 29.—Consols touched \$7 at noon Tuesday, the lowest point since 1866, and then hardened somewhat, the whole feeling of the stock exchange being one of extreme depression and nervousness. No disposition is shown to support prices, and when the stocks offered a quotation they were immediately lowered against sellers. Americans showed a further decline in sympathy with Monday's movement in New York.

**NEWS IN BRIEF.**  
Lord Milner arrived in London.  
John F. Fahm, a well known Dallas printer, died Monday.  
Fine rains around Pecos, Tex., insure plenty of grass and water.  
Burglars broke into a store at Burlington, Tex., but secured no cash.  
Rev. W. D. Holloway, a young Baptist divine, passed away at Marlin, Tex.  
William Abbey, an ex-locomotive engineer, killed himself at San Antonio.  
Three negroes had a fight at Wilmer, Dallas county, Texas, and all were shot.  
County Clerk Shanks of Dallas county reports a great demand for marriage licenses.  
Hugh Wilson sent a bullet through the head of his sleeping wife and then killed himself.  
Northern coast of Portugal was swept by a severe storm and sixteen men drowned.  
W. F. Miller, convicted at Erie, Pa., of criminal assault, was given twenty-nine years. Sentence was suspended on one count.  
Samuel B. Hawkins, a former Dallas lawyer, who was injured by a fall from a horse on his ranch near Gainesville, Tex., is dead.  
The body of W. E. Shields, for eight years county clerk of Somervell county, Texas, were found near Granbury. He had drowned. A rock was found tied around his neck and \$39, a watch and ring on his person. He had been to Granbury to be treated for nervous debility.

**Was Solomon a Plagiarist?**  
Two thousand five hundred years before King Solomon made an alliance with Pharaoh and 3,500 years before the birth of Christ there lived in Egypt a prefect, Ptah-hotep by name, who was a collector of moral maxims which were even then hoary with antiquity. These gems of proverbial wisdom are strikingly like those of the wise Hebrew monarch, although it must be admitted they received additional luster from his hand. These are samples of the Egyptian maxims, as translated in the Literary Digest:  
"Be not proud of your wisdom, but speak to the ignorant man as you do to the learned."  
"If you must deal with an antagonist while he is in anger and he is more powerful than you, then bend your neck to him."  
What is this but the philosophy which warns against the "man wise in his own conceit" and advises the "soft answer that turneth away wrath?"

**Wanted the Lambs Handy.**  
"I want to get a tombstone for my husband's grave," she said, pushing back her somber veil.  
"We have all kinds," replied the dealer. "Is there any particular style you wish to get?"  
"Yes, I was thinking I would like to have one of those marble blocks with lambs carved on them."  
"But those are generally supposed to be placed upon the graves of children."  
"Yes, I know—I've noticed that. Still, I think it will please him to have one of them if he can look back here now and see and understand what we are doing. You see, he operated in Wall street, and it will make him happy to always have a lamb there right within reach."—Chicago Record-Herald.
